# Homework Report

Math 237 - Dr. Drew Lewis

Due at the beginning of the first class period each week.

- 1) Which standards did we cover in class since the last Homework Report was due?
- 2) Which standards did you practice outside of class since the last Homework Report was due?
- 3) List the problems you worked on. If you believe your solution demonstrates mastery (would be marked as **M**), circle it.
- 4) Which standards from earlier in the semester do you plan to review before the next Homework Report is due?
- 5) Which of those standards do you plan on reassessing outside of class before the next Homework Report is due?
