MASTERY QUIZ DAY 8

Math 237 – Linear Algebra

Version 4

Fall 2017

Show all work. Answers without work will not receive credit. You may use a calculator, but you must show all relevant work to receive credit for a standard.

Standard E1.	Mark:
---------------------	-------

Write an augmented matrix corresponding to the following system of linear equations.

$$x + 3y - 4z + w = 5$$

$$3x + 9y + z - 7w = 0$$

$$x - z + w = 1$$

Standard E3.	Mark:
---------------------	-------

Solve the system of equations

$$x + 3y - 4z = 5$$

$$3x + 9y + z = 2$$

Standard E4.	Mark:
---------------------	-------

Find a basis for the solution set of the system ...

Standard V1.	Mark:
---------------------	-------

Let V be the set of all real numbers together with the operations \oplus and \odot defined by, for any $x, y \in V$ and $c \in \mathbb{R}$,

$$\begin{aligned}x \oplus y &= x + y - 3 \\c \odot x &= cx - 3(c - 1)\end{aligned}$$

Determine if V is a vector space or not.
