Module A: Algebraic properties of linear maps

Readiness Assurance Outcomes

Before beginning this module, each student should be able to...

- State the definition of a spanning set, and determine if a set of Euclidean vectors spans $\mathbb{R}^n$ **V3**.

- State the definition of linear independence, and determine if a set of Euclidean vectors is linearly dependent or independent **V5**.

- State the definition of a basis, and determine if a set of Euclidean vectors is a basis **V6,V7**.

- Find a basis of the solution space to a homogeneous system of linear equations **V10**.
